**Cost \$450.00 US per 10-class session**

Share a bench for an intense seminar style instruction & discussion of tapestry and pictorial weaving via Zoom. Participants may create their own individual schedules by mixing & matching (up to 10) any of the available group classes (Tuesdays &/or Saturdays) in the next 2 sessions. Supported by a private Facebook community, you will have access to session recordings including videos of the processes and close up pictures of the details. Additionally, 1 on 1 teaching sessions (by appointment) are available for individual help at no additional cost. While Kathe will be presenting her own complex tapestry weaving style (a bag of magic tricks compiled from years of work in the industry and knowledge gained from around the world), each participant will also present their own weaving projects to the group. Expect lively free flow discussions on technique, design, and history. While topic-based instruction is available by request, we will be focusing on the particular questions or problems that arise while we're weaving.
